

1. Horse Racing

a. General Horse Racing Rules

- 1) All conditions stated in this section refer only to Horse Racing and have priority over any other rule or condition.
- 2) Settlements will be based upon the official result issued at the time of the 'Weigh In'. Any changes after such result has been announced will not be taken into consideration.
- 3) Any bets, with the exception of "Ante Post Betting" will be considered void should the race be abandoned or declared void. Should the race be postponed to a future day and the 'Final Declarations' stand, all bets will be deemed valid provided that the venue for said race has not been changed. In such other cases all bets will be declared void.
- 4) Any reference to start times published in conjunction with any bet offer, refer to the official scheduled race time in local time. Unless otherwise specified within the Horse Racing rules, all bets will stand irrespective of any eventual changes to the race start time.
- 5) In the event of a false start, or any other occurrence which would result in a race being re-run, the race will not be considered to have been 'under starter's orders'. In such case stakes would be refunded on selections not taking part in the re-run. Any returns on the remaining selections would be subject to Tattersalls Rule 4. The number of runners taking part in the re-run will establish the 'Place' terms. However, regular Ante Post rules apply for Ante Post bets.
- 6) Should a race be declared as being a "No-Race" and a re-run takes place, all bets will stand for the Horses that take part in the re-run. Prices offered for a "No-Race" will stand for the re-run race unless there is a non-runner, in which case all bets will be settled as per Tattersalls Rule 4.
- 7) Settlement of bets on horses which either refuse to come out of the starting stalls, or else refuse to start in a National Hunt race will be based on the pronouncement of the official starter. Should the official starter deem the horse as being a runner, bets on that horse will be settled as if the horse ran.
- 8) A race is considered to be 'Walkover' when only one horse takes part in the race.
- 9) 'Walkovers' and void races count as races but any selection involved will be treated as a non-runner.

10) Should there be any doubt as to whether a bet refers to horse or greyhound racing, horse racing will be given precedence.

11) If a selection is correctly named, then bets will stand on that selection no matter if an incorrect meeting, time or price is appended. When a selection is identified by race time and number, that number will also take precedence over any price taken.

12) In the event of a double engagement and the client requests a specific race time, it will be considered a bet for that race only. If the selection runs in the other race it will be treated as a non-runner.

b. Win Betting & Each Way Betting

1) A "Win" bet is a single stake on the chosen selection which will only be considered as won if the chosen horse wins the race.

2) An "Each Way" bet (aka EW) refers to a bet where the chosen selection must either Win or else place within the payout terms. The bet is divided in two parts (the "Win" part and the "Place" part) of an equal stake: thus a £1 EW bet will cost a total of £2.

3) All "Each Way" bets are governed by the Starting Price (aka S.P.) place terms. Thus place terms (1/4, 1/5 and number of places paid) will be determined by the number of horses coming 'under starter's orders' and not by the number of declared runners when the bet was placed. In the event of an extra place(s) concession, Unibet reserves the right to change the place dividend. In the event of withdrawals, the extra place concession may reduce proportionately.

4) The following are the terms for "Each Way" betting: 1. Handicap Races:

2-4 runners = Win only

5-7 runners = 1/4 the odds 1, 2

8-11 runners = 1/5 the odds 1, 2, 3

12-15 runners = 1/4 the odds 1, 2, 3 16 or more runners = 1/4 the odds 1, 2, 3, 4

2. Non Handicap Races:

2-4 runners = Win only

5-7 runners = 1/4 the odds 1, 2

8 or more runners = 1/5 the odds 1, 2, 3

5) All Each-Way Doubles, Trebles, etc., are settled win to win, place to place.

6) "Betting Without" refers to the possibility of betting on whether a particular horse will be able to achieve a specific finishing position (Win or Place) should the listed horses be excluded from the computation of the official results.

7) 'Each Way' terms for "Betting Without" markets will be based on the number of runners who actually take part in the race after the listed horses are excluded from the total amount or runners.

8) Tattersalls Rule 4 deductions apply in case of non-runners within "Betting Without" markets.

c. Prices - Early, Board and Starting

1) It is possible to select from two (2) pricing options: the price at the time of placement or else the Starting Price (SP). The SP refers to the odds for the chosen selection at the start of the race. Should betting be available during the race, the SP will be calculated based on the last available odds for the selection. It is to be noted that SP is not available for Ante Post betting (AP).

2) Early Prices (EP) are the odds offered on the day of the event. These are usually offered between 8 and 10 am on the day of the event until 15 minutes from the start of the race. There might be cases (such as for Saturday racing and high profile meetings), where once the final declarations are known, EP are offered at different timeframes than the ones mentioned above.

3) The alternatives to SP, Board Prices (BP) or Industry Prices (IP) are normally shown around 15 minutes prior to the race.

4) Any bet, other than those placed at SP will result in the settlement being based on the price taken at the time of bet placement, as well as subject to the other rules stated in this section.

5) Stakes placed on EP and BP will be refunded in case a horse is withdrawn "not under orders". Odds on horses within the same race will be subject to Tattersalls Rule 4(c) deductions, if applicable.

6) In cases of withdrawals which result in a new market being formed. All bets taken at EP or BP prior to the new market will be subject to Tattersalls Rule 4(c) deductions, if applicable.

7) Bets are accepted in races of two (2) or more runners for named selections at the current "Board/Show Prices" as transmitted to our service by the official information service (PA),

8) Should an erroneous price be transmitted, all bets taken on outcomes with wrong odds will be settled as void and stakes will be refunded.

9) In cases where Tattersalls Rule 4 is applicable following the withdrawal of a horse, no further bets will be taken at "Board/Show Price", unless a new market has been formed.

10) Horses offered as "Price Boosts", "Knockouts" etc., will also be subject to a Rule 4 deduction should there be an applicable non-runner in the race.

11) Any reference to timeframes, price availability, etc. is to be deemed as indicative and not binding. Platinum Gaming (PG) reserves the right to alter such timeframes, issue prices, as well as suspend availability of any race or betting option at its sole discretion.

d. Unnamed Favourite Betting

The "Unnamed Favourite" (fav) and the "Unnamed Second Favourite" (2fav) refer to selections which are determined based on the following:

1) The horse which is given in the SP at the lowest odds is to be considered as the "Unnamed Favourite".

2) Should the SP return two horses as the ones with the shortest odds the horse with the lowest race card number will be deemed as the "Unnamed Favourite".

3) Should a horse be withdrawn 'not under orders' but is still returned favourite as per SP, the horse will be treated as a non-runner.

4) In the event of a 'walkover', after the market has been displayed all bets will be settled as void.

e. Tattersalls Rule 4

1) Tattersalls Rule 4 is applicable in cases where a horse is withdrawn not coming under starters orders, or is officially deemed by the starter not to have taken part in the race.

2) Tattersalls Rule 4 deducts a set value from winning bets in order to compensate for the withdrawal of a horse in the specific race. The size of the deduction is determined by the FIXED odds (Early or Board/Show) that the horse has at the time of its withdrawal.

5) Races which involve more than one withdrawal be subject to a maximum deduction of 90p per £1.

6) Where the total deduction on the market on which the bet was placed is 5p in the £, and only one horse has withdrawn, as a concession, the deduction will be waived. However, if two or more horses are withdrawn an accumulative Rule 4 deduction will be applied.

f. Ante Post betting

1) For a bet to be considered as an Ante Post bet (AP) it is to be placed prior to the overnight declaration stage. Usually such declaration is effected 48 hours prior to race start for Flat racing and 24 hours prior to race start for National Hunt racing.

2) AP stakes on horses which are not participating in the race will not be refunded and

Tattersalls Rule 4 does not apply, unless specifically stated.

3) Should at least one of the following occurrences happen all AP bets will be declared void:

- i. The race is abandoned;
- ii. The race is officially declared void;
- iii. The conditions of the race are altered after bets are made (as defined under Tattersalls Rules);
- iv. A horse is balloted out under The Jockey Club Rules of Racing;
- v. The venue or running surface is altered (example Turf to Dirt/All Weather or vice versa);
- vi. The entries of the race are reopened.

4) Aside from the eventualities stated in this section, all AP bets will be deemed valid if the race is run within 14 full days from when initially scheduled, as long as the conditions of the race remain unaltered. Such conditions include that the rescheduled race is ran on the same track, covering the same distance and that the race is not reopened for new entries. Should the rescheduled race fail to meet any of the aforementioned criteria, all AP bets will be settled as void.

5) AP bets are settled at the price and place terms applicable at the time of acceptance, Should a bet be accepted at wrong odds or Place terms, Platinum Gaming reserves the right, at its own discretion, to settle the bet as void and stakes will be refunded.

1) Should a horse be withdrawn 'not under orders', all stakes on that horse will be refunded. Deductions in accordance with the Rule 4 tables below will apply. These deductions will be based on the 'Place Only' price at the time of the withdrawal and will apply to the 'Place Only' market.

2) The number of places paid will be determined by the declarations on the day of the race. Should the number of places be reduced because of a reduction in the number of runners, for the purposes of 'Place Only' betting the number of places paid will remain unchanged. However, should the number of runners be equal to or less than the number of places on offer, bets on this market will be declared void and stakes refunded.

3) Deductions on the odds of the remaining horses are based on the following: Decimal odds

1) A “Win” bet is a single stake on the chosen selection which will only be considered as won if the chosen greyhound wins the race.

2) An “Each Way” bet (aka EW) refers to a bet where the chosen selection must either Win or else place within the payout terms. The bet is divided in two parts (the “Win” part and the “Place” part) of an equal stake. Thus a £1 EW bet will cost a total of £2.

3) All “Each Way” bets are governed by the Starting Price (aka S.P.) place terms. Thus place terms (1/4, 1/5 and number of places paid) will be determined by the number of greyhounds effectively starting the race and not by the number of declared runners when the bet was placed.

4) The following are the terms for “Each Way” betting: 2-4 runners = Win only 5-6 runners = 1/4 the odds 1, 2 5) All bets on non-finishers will be considered as losing bets.

6) Should the number of greyhounds finishing the race be inferior to the amount of place terms as listed previously, only those runners officially placed will be treated as winning selections.

7) All Each-Way Doubles, Trebles, etc., are settled win to win, place to place 8) Each-Way bets are also accepted on Unnamed Favourites.

9) “Betting Without” refers to the possibility of betting on whether a particular greyhound will be able to achieve the highest finishing position should the listed greyhound be excluded from the computation of the official results.

10) ‘Each Way’ terms for “Betting Without” markets will be based on the number of runners who actually take part in the race after the listed greyhounds are excluded from the total amount of runners.

11) Tattersalls Rule 4 deductions apply in case of non-runners within “Betting Without” markets.

12) Should a greyhound become a non-runner after the live show has come through from the track, bets placed on that selection will be declared void. Bets on the remaining runners will be subject to a Rule 4 deduction.

1) It is possible to select from two (2) pricing options: the price at the time of placement or else the Starting Price (SP) The SP refers to the odds for the chosen selection at the start of the race.
